

KATE TINDLE SLOAN

June 12, 1942 - February 7, 2021

Kate poses on her birthday in Jun 2019

About 2 weeks ago my mom fell and hit her head. As she was already in the late stages of Alzheimer's, this fall has had a significant impact on her.

On January 16th she was placed in hospice. Fortunately, she was able to stay in her loving memory care home while she transitioned.

Mom passed away peacefully at her memory care home Sunday, February 7th at 7 am. Thank you for giving her a great sendoff. All of your love and support has made the world of difference to us.

A virtual celebration which will be scheduled at a later date.

In lieu of flowers or gifts, please consider a donation to Rakhma Homes or Grace Hospice in Minneapolis. Both organizations showered mom with the most love and respect as she transitioned.

-Kimberly Berkus
